Nature Of Opinion:

Docket Number: W-02181A-15-0216

Docket Position:

caller is not so much opposed to any increase in rates, but is opposed to the 3x existing rate the company has proposed.

Other comments were concerns about the 1" meter fire sprinkler rate, as he was told he needed a one inch meter and now feels he is being penalized in a higher rate for a situation that may never occur. (fire).

He is concerned with the fact that the company's owner has another business that leases tanks to the water company. He wants to be assured that commission staff has this knowledge when reviewing the application.

His last concerns are the fact that no commodity rate is listed on the bill. Only the gross water usage, previous read and current read is provided.
